SUBJECT INDEX
Volume 36

AKR-MCA, the specific binding of transferrin to the murine fibroblast cell lines AKR-2B and its malignant counterpart, may be related to the transformed state, 263
Alpha-acetoxy derivatives of methyl-2-oxopropylnitrosamine: synthesis, hydrolysis rate and bacterial mutagenicity, 325
Alpha-naphthoflavone induced sister chromatid exchanges, increased frequencies of, in long-term survivors of childhood acute lymphoblastic leukemia, 213
Altered pp60^{src} kinase activity in regressing timor induced by Rous sarcoma virus, 99
Amyl nitrite, demonstration of in vivo formation of the nitrosamine *N*-nitroso-*N*-methylaniline from, 125
Antiproliferative salicylaldoximato type copper(II) chelate, an, as an enhancer of the cytotoxicity of murine spleen cells to tumor cells in vitro, 333
Azelaic acid as a competitive inhibitor of thioredoxin reductase in human melanoma cells, 297

Benzo[*a*]pyrene, covalent binding of, to macromolecules in lung and liver of rats following intratracheal instillation, 149
Biological potency and phorbol ester receptor affinity in C6 cells, second stage tumor promoters: differences in, 139
Biotransformation with age, changes in phase I and phase II, in male Fischer 344 rat colon: relationship to colon carcinogenesis, 273
1,3-Bis(2-chloroethyl)-1-nitrosourea, biochemical analysis of the effects of, on the growth of a human melanoma cell line, 131
Bone marrow, human, the metabolism in vitro of 7,12-dimethylbenz[*a*]anthracene by, 83

C6 cells, second stage tumor promoters: differences in biological potency and phorbol ester receptor affinity in, 139
C3H-Tumors and tissues of mice, a comparision of different photosynthesizing dyes with respect to uptake, 1
Carbamate fungicide, mancozeb, tumour initiating activity of, in mouse skin, 283
Carcinogen electrophiles formed in the gastrointestinal tract, magnetic polyethyleneimine (PEI) microcapsules as retrievable traps for, 45
Cellular proto-oncogenes on human chromosomes, genes for tumor markers are clustered with, 235
Childhood acute lymphoblastic leukemia, increased frequencies of alpha-naphthoflavone induced sister chromatid exchanges in long-term survivors of, 213
Choline, initiation of carcinogenesis by a dietary deficiency of, in the absence of added carcinogens, 289
Cisplatin uptake, decreased, by resistant L1210 leukemia cells, 197
Colon carcinogenesis, changes in phase I and phase II biotransformation with age in male Fischer 344 rat colon: relationship to, 273
Covalent binding of benzo[*a*]pyrene to macromolecules in lung and liver of rats following intratracheal instillation, 149

Dibenzo[*a*,*e*]fluoranthene, formation and persistence of DNA-protein cross-links induced in mouse fibroblasts by, and modulation by stimulators and inhibitors of polycyclic aromatic hydrocarbons (PAH) metabolism, 169
Dietary deficiency of choline, initiation of carcinogenesis by a, in the absence of added carcinogens, 289
Dietary retinyl palmite and selenium, effects of, on tumoricidal capacity of macrophages in mice undergoing tumor promotion, 181

Diethylnitrosamine, liver cell proliferation induced by the mitogen ethylene dibromide, unlike compensatory cell proliferation, does not achieve initiation of rat liver carcinogenesis by, 247
Diethylstilbestrol, induction of DNA fragmentation and DNA repair synthesis in human and rat hepatocytes by, 19
7,12-Dimethylbenz[*a*]anthracene, the metabolism in vitro of, by human bone marrow, 83
DNA, ellagic acid metabolism and binding to, in organ explant cultures of the rat, 203
DNA fragmentation and DNA repair synthesis, induction of, in human and rat hepatocytes by diethylstilbestrol, 19
DNA-protein cross-links, formation and persistence of, induced in mouse fibroblasts by dibenzo[*a*,*e*]fluoranthene, and modulation by stimulators and inhibitors of polycyclic aromatic hydrocarbons (PAH) metabolism, 169
DNA repair synthesis, DNA fragmentation and, induction of, in human and rat hepatocytes by diethylstilbestrol, 19
Dominant lethal mutation by 'Katha' (catechu) in male mice, induction of sister chromatid exchange and, 189
DT-diaphorase in morbidly obese patients 341

Ellagic acid metabolism and binding to DNA in organ explant cultures of the rat, 203

Flow cytometry, in vitro proliferation of primary human head and neck squamous cell carcinomas evaluated by, 71

Gavaged corn oil, intestinal responses in the male rat to, 55
Genes for tumor markers are clustered with cellular proto-oncogenes on human chromosomes, 235
Genetic resistance to mammary tumorigenesis in a mouse strain high murine mammary tumor virus expression, 119
Genotoxic activity of the hepatocarcinogen DL-ZAMI 1305, critical role of gonadal hormones on the, 253
Gingerol and shogaol, mutagenicity of, and antimutagenicity of zingerone in Salmonella/microsome assay, 219
Glycoalkaloids from *Solanum sodomaeum* are effective in the treatment of skin cancers in man, 111
Gonadal hormones, critical role of, on the genotoxic activity of the hepatocarcinogen DL-ZAMI 1305, 253

Hepatocarcinogen DL-ZAMI 1305, critical role of gonadal hormones, on the genotoxic activity of the, 253
Hepatocarcinogenesis, promotion of, by suxibuzone in rats initiated with 3′-methyl-4-dimethylaminoazobenzene, 11
Hepatocyte intercellular communication by liver tumor promoters, strain and species effects on the inhibition of, 161
Hepatomas, 2 transplantable highly deviated rat, ornithine decarboxylase lability in, 35

Inhibin-like material — an immunohistologic marker for prostatic origin of metastases, 93
Intestinal responses in the male rat to gavaged corn oil, 55
Intratracheal instillation, covalent binding of benzo[*a*]pyrene to macromolecules in lung and liver of rats following, 149
In vitro proliferation of primary human head and neck squamous cell carcinomas evaluated by flow cytometry, 71

'Katha' (catechu) in male mice, induction of sister chromatid exchange and dominant lethal mutation by, 189

Liver cell proliferation induced by the mitogen ethylene dibromide, unlike compensatory cell proliferation, does not achieve initiation of rat liver carcinogenesis by diethylnitrosamine, 247
Liver tumor promoters, strain and species effects on the inhibition of hepatocyte intercellular communication by, 161

Macromolecules in lung and liver of rats following intratracheal instillation, covalent binding of benzo[*a*]pyrene to, 149
Magnetic polyethyleneimine (PEI) microcapsules as retrievable traps for carcinogen electrophiles formed in the gastrointestinal tract, 45
Mammary tumorigenesis in a mouse strain with high murine mammary tumor virus expression, genetic resistance to, 119
Mancozeb, a carbamate fungicide, tumour initiating activity of, in mouse skin, 283

Melanoma cell line, human, biochemical analysis of the effects of 13-bis(2-chloroethyl)-1-nitrosourea on the growth of a, 131
Metastases, inhibin-like material — an immunohistologic marker for prostatic origin of, 93
3′-Methyl-4-dimethylaminoazobenzene, promotion of hepatocarcinogenesis by suxibuzone in rats initiated with, 11
Methyl-2-oxopropylnitrosamine: alpha-acetoxy derivatives of, synthesis, hydrolysis rate and bacterial mutagenicity, 325
Mitogen ethylene dibromide, liver cell proliferation induced by the, unlike compensatory cell proliferation, does not achieve initiation of rat liver carcinogenesis by diethylnitrosamine, 247
Murine fibroblast cell lines AKR-2B, the specific binding of transferrin to the, and its malignant counterpart AKR-MCA may be related to the transformed state, 263
Murine spleen cells, the cytotoxicity of, an antiproliferative salicylaldoximato type copper(II) chelate as an enhancer of, to tumor cells in vitro, 333
Murine tissues and tumours, activities of serine hydroxymethyltransferase in, 65

Nitrosamine *N*-nitroso-*N*-methylanaline from amyl nitrite, demonstration of in vivo formation of the, 125
Non-benzo ring bay-region methyl substitutents, further investigations into the effect of, on tumor-initiating activity of polycyclic hydrocarbons, 317

Organ explant cultures of the rat, ellagic acid metabolism and binding to DNA in, 203
Ornithine decarboxylase lability in 2 transplantable highly deviated rat hepatomas, 35

Phorbol ester receptor affinity in C6 cells, second stage tumor promoters: differences in biological potency and, 139
Polycyclic aromatic hydrocarbons (PAH) metabolism, formation and persistence of DNA-protein cross-links induced in mouse fibroblasts by dibenzo[*a*,*e*]fluoranthene and modulation by stimulation and inhibitors of, 169
Polycyclic hydrocarbons, further investigations into the effect of non-benzo ring bay-region methyl substitutents on tumor-initiating activity of, 317
Primary human head and neck squamous cell carcinomas, in vitro proliferation of, evaluated by flow cytometry, 71
Prostatic origin of metastases, inhibin-like material — an immunohistologic marker for, 93

Resistant L1210 leukemia cells, decreased cisplatin uptake by, 197
Rous sarcoma virus, altered pp60^{src} kinase activity in regressing tumors induced by, 99

Serine hydroxymethyltransferase, activities of, in murine tissues and tumours, 65
Sister chromatid exchange, induction of, and dominant lethal mutation by 'Katha'(catechu) in male mice, 189
Sister chromatid exchanges, increased frequencies of alpha-naphthoflavone induced, in long-term survivors of childhood acute lymphoblastic leukemia, 213
Skin cancers in man, glycoalkaloids from *Solanum sodomaeum* are effective in the treatment of, 111
Solanum sodomaeum, glycoalkaloids from, are effective in the treatment of skin cancers in man, 111
Solvents, three industrial, investigated for tumor promoting activity in the rat liver, 29
Suxibuzone in rats initiated with 3′-methyl-4-dimethylaminoazobenzene, promotion of hepatocarcinogenesis by, 11

Thioredoxin reductase in human melanoma cells, azelaic acid as a competitive inhibitor of, 297
Tumoricidal capacity of macrophages in mice undergoing tumor promotion, effects of dietary retinyl palmite and selenium on, 181
Tumor promoting activity in the rat liver, three industrial solvents investigated for, 29
